

Fundamentals

Fundamentals: AIC's starting point- little or no prior school experience. Language, Social Studies and Science will all be taught in a multidisciplinary, multisensory approach for an immersive educational experience.

Language will follow the Science of Reading & Writing including phonological awareness such as letter and sound recognition, handwriting, oral language, fluency and early literary story elements.

Utilizing Masterbooks Level 1, students will learn all the basic concepts they need to begin their math education.

--Language Curriculum:
